

Away From You

slenderbodies

It's a cold, cold night, I'm sitting by the fire
'Cause every time it's like this
You can tell the sun is setting
It's so sentimental

And every time I see your face
I'm all over the place
You look just like a lover does
And I'll wait for better days
So say you're all over the place
And I look just like a lover does

And even if I tried
(I can't stay away from you
I can't stay away from you
I can't stay away from you
I can't stay away from you)
And even if I tried
(I can't stay away from you
I can't stay away from you
I can't stay away from you
I can't stay away from you)
Even if I tried

It's a lonely world here
When I'm on my own
The memories, they're still here
You told me that you felt it
It's alright here
I don't let it go now

Remember the days we'd go out
Remember the days we'd slow down
I do, I do
Remember this place like no doubt
Remember your face when it's loud
I do, I do

Your face
I'm all over the place
You look just like a lover does
And I'll wait for better days
So say you're all over the place
And I look just like a lover does

And even if I tried
(I can't stay away from you
I can't stay away from you
I can't stay away from you
I can't stay away from you)
And even if I tried
(I can't stay away from you
I can't stay away from you
I can't stay away from you
I can't stay away from you)

[Repeat to end]
