

Moods

slenderbodies

My mood's depending on you, ah-ah-ah
Our mood's dependent on the sun
My mood's depending on you, ah-ah-ah
Our mood's dependent on the sun

Float, keep it
Written on my sleeve, I'm a lost boy
Ready to overtake your fate
And now I know this place, yeah
Feeling winter's teeth all at once, now
Ready to overtake your fate

How Some
Try to feed it later
Hard to be alone
When it's all faded
Don't know what's whole
Don't know how to lay there
What is going on?
What is going on?

My mood's depending on you, ah-ah-ah
Our mood's dependent on the sun
My mood's depending on you, ah-ah-ah
Our mood's dependent on the sun

(It was a long time ago
It was a long time
It was a long time ago
It was a long time
It was a long time ago
It was a long time)

My mood's
(It was a long time ago
It was a long time)
Depending on you, ah-ah-ah
(It was a long time ago
It was a long time)
Our mood's
(It was a long time ago
It was a long time)
Dependent on the sun
(It was a long time ago
It was a long time)
My mood's
(It was a long time ago
It was a long time)
Depending on you
(It was a long time ago
It was a long time)

Our mood's
(It was a long time ago
It was a long time)
Dependent on the sun
(It was a long time ago

It was a long time)
My mood's
(It was a long time ago
It was a long time)
Depending on you
(It was a long time ago
It was a long time)
Our mood's
(It was a long time ago
It was a long time)
Dependent on the sun
(It was a long time ago
It was a long time)
