

Heights  
Looking down from above  
The sky by my fingertips the polychrome below

You wanna play it out  
Live  
Walking through a sea of colors

Floating through  
I wanna see you lie down

It's so surreal

Kaleidoscope  
Dance with the crystals down below  
Spend all my time to let it go  
You wanna play it out  
Of my mind

I feel so right  
Stop me if you want it all  
Hold me down and beg  
I still won't give you anything

Spent time in a polychrome  
Still i got my head right  
Still i got my head right  
I feel alright  
I feel alright

Still i got my head right  
Still i got my head right

All my thoughts tessellate for you  
It's been so wrong  
It's been so wrong

A single breath i drew from you  
It's been so long  
It's been so long

I feel so right  
Stop me if you want it all  
Hold me down and beg  
I still won't give you anything

Spent time in a polychrome  
Still i got my head right  
Still i got my head right  
I feel alright  
I feel alright

Don't wanna be in it all  
Don't wanna be in it

I wanna be in it all  
I wanna be in it
