

She Bangs

Slightly Stoopid

And when I wake up
They got no reason
Just for livin' or for dyin' [?]
We know who prays
Who gon' demand me
Remember, level-head don't want to be a friend to me

You know you want it
You know you need it
Caught between the edge
I want to see us hardly breathing
You must be bored
And while I'm living for the day
[?] she never learned to disobey

She bangs
She moves
She only get it right
She bangs
She moves
She only get it right
She bangs
She moves
She only get it right

This ain't no stick-up
This ain't no robbery
You'll get your money
'Cause you never win no lottery
No time to pick up
Who there on Saturday
You get your money and [?]

You know you want it
You know you need it
Caught between the edge
I want to see us hardly breathing
You know your role
And now you're living for today
[?] she never learned to disobey

She bangs
She moves
She only get it right
She bangs
She moves
She only get it right
She bangs
She moves
She only get it right

You know you want it
You know you need it
Caught between the edge
I want to see us hardly breathing
You know your role
And now you're living for today

She bangs
She moves
She only get it right
She bangs
She moves
She only get it right
She bangs
She moves
She only get it right
