

## Blue Hills (In The Distance)

Slim Dusty

With blue hills in the distance

It's morning and we're gazin' through the window of the Ghan  
Rockin' rollin' rollin' out across the timeless land  
Winding thru the spinifex and miles of burning sand  
With blue hills in the distance

People having breakfast in the comfort of the train  
Diesel engine humming as she echos by the range  
Building up momentum as we coast across the plains  
With blue hills in the distance

Big old red buck kangaroo he stops to sniff the air  
Shakes his head and looks about for danger anywhere  
Old man emu makes a dash with the youngster in his care  
With blue hills in the distance  
Hey!

Namajira's famous gums and ochre coloured plains  
Sandy creeks that flow nowhere excepting when it rains  
Mulga stands and desert lands that time has never changed  
With blue hills in the distance

Willy Willy winds it's way across the great expanse  
Sweeping up the roly polly in it's spiral dance, hey  
Building up with fury as it winds across the plain  
With blue hills in the distance

It's morning and we're gazin' through the window of the Ghan  
Rockin' rollin' rollin' out across the timeless land  
Winding thru the spinifex and miles of burning sand  
With blue hills in the distance

With blue hills in the distance
