

## Country Livin'

Slim Dusty

There's an old fashioned country way of livin'  
There's an old country way to greet a friend  
I'm shakin' off the shackles of this big town  
And I'm headin' for the country ways again

There's an old fashioned country way of singin'  
Songs that are truthful and worthwhile  
Songs of the life we live together  
Oh I mean to say we call it country style

There's an old fashioned country way of playin'  
Without the pomp and style of any star  
It's what we call a good old get together  
Stringin' with a pick 'n strum guitar - oh yeah

Oh you can't beat a good old country barn dance  
They come for miles up and down the line  
And if they feel like dancin' until daylight  
Oh well no-one seems to care about the time

Oh there's mateship in a good old country bar room  
For everyone knows everybody else  
And as you laugh and listen to the dirty stories  
And maybe throw a few around yourself

So you ask me city friend, why I am leavin'  
To share again the droughts and floods and strife  
You ask me why I'm singin' country music  
Well country music, friend, is a way of life

\* There's an old fashioned country way of livin'  
There's an old country way to greet a friend  
Though fame and wealth may never be extended  
Your wealth is in the hearts of your dear friends

There's an old fashioned country way of livin'  
There's an old country way to greet a friend  
I'm shakin' off the shackles of this big town  
And I'm headin' for the country ways again  
Yeah, headin' for the country ways again
