

Good Heavens Above

Slim Dusty

Feelin' dizzy an' I'm weak in the knees,
Good heavens above,
Don't know what happening to me,
Good heavens above,
Got my feet on the ground, but my head in the clouds,
Like I'm livin' a dream,
And everyone says "Hey! Hey, you know what I means"?
Well it means you're in love,
Yes it means you're in love,
Like the stars up above you're all shiny and new,
When you wear it like a glove,
Yes it means you're in love,
Well it means you're in love,
You keep howling at the moon 'cause you found a dear
tune,
And you know you're in love.

My concentration walked out the door,
Good heavens above,
Don't believe what I just saw,
Good heavens above,
Well when you walked in and sat yourself down,
I became the clown,
And everyone says, "Hey! Well you know what I means"?
Well it means you're in love,
Yes it means you're in love,
Like the stars up above you're all shiny and new,
When you wear it like a glove,
Yes it means you're in love,
Well it means you're in love,
You keep howling at the moon 'cause you found a dear
tune,
And you know you're in love.

I was feelin' like a blue dog on a chain,
You brought relief like a storm on a dusty plain,
And like the wind you took my breath away,
Now the sunrise said, all I need to say,
Well it means you're in love,
Yes it means you're in love,
Like the stars up above you're all shiny and new,
When you wear it like a glove,
Yes it means you're in love,
Well it means you're in love,
You keep howling at the moon 'cause you found a dear
tune,
And you know you're in love.

You keep howling at the moon 'cause you find a dear
tune,
And you know you're in love.
