

If You Walk Out That Gate

Slim Dusty

If you walk out that gate you'll be leavin' it too late,
Think it over the same as I,
If you slam my front door, never darken it no more,
If you walk out that gate, it's goodbye.

We've been friends for so long, why has everything gone
wrong,
We can patch it up again, let's try,
Put your traveling bag away, come inside here and say,
Who's to blame, well I don't know, you or I.

If you walk out that gate with a heart filled with hate,
You'll be sorry some day and cry,
If you go and leave the scene think of what might have
been,
If you walk out that gate, it's goodbye.

If you walk out that gate you'll be leavin' it too late,
Think it over the same as I,
If you slam my front door, never darken it no more,
If you walk out that gate, it's goodbye.
