She my Mrs  
I done gave that lady plenty kisses  
Granted plenty wishes  
She helped me get my riches  
Not like them other bitches who be with him, and him  
She don't know none of them, she just fuckin' with Slim  
Got that [?] back, everything intact  
Come ride with the Mack  
Bosses don't role in packs  
She got my back, when I slip, she the grip  
Code captain of the ship when I slide through and drip  
Gifted bags with expensive tags, showin' love back  
Because she got it like that  
Damn, how you love that?  
Grown woman vibes  
She went got it on her own  
Well let me help you with that queen, join me on the throne

(That's all on me)  
(Dreamin', oh)  
My black queen  
(That's all on me)  
(Dreamin', oh) Is it you?  
I'm lookin' for my black queen  
(That's all on me)  
(Dreamin', oh) Where she at?  
I want my black queen  
(That's all on me)  
(Dreamin', oh)

Back-to-back in matching Maybachs, how real is that?  
Let's travel the world, had my first girl, how real is that?  
Have a family, no more baby mama drama  
Start a legacy, let's leave the grandkids some commas  
Change the cycle  
I got hustle, she got brains  
And with my money in her mind, we gettin' capital gains, huh  
She got feather, not rappin' the same  
See some woman, you don't ever think to call 'em out they name  
Lames, don't say that I'm gettin' soft  
They ain't get no pussy though  
You a rookie, I'm a pro  
Different eras, different, bro  
This a good move when y'all both got somethin' to lose  
She a jewel, she a tool, and she just so cool

She my black queen
