

Head Up

Slim Thug

Ain't gon' end there, ain't gon' end there, yeah (Better, better)
Said it won't always be this rough (Better, better)
God will keep you with His love (Better, better)
Keep your head up, my friend (Better, better)

Go'n keep your head up, don't get fed up
Get your bread up, you'll feel better
You know you ain't a quitter, you a go-getter
The sun gon' shine, it's just stormy weather
We all goin' through it
It's gettin' crazier in this world, get used to it
Life hard, losin' loved ones, gettin' older
Feel like you got the whole world on your shoulders
God got your back, let go, let Him lead the way
Instead of tryna do it all, have a good day
Focus on the now, stop tryna take control
Pray every day to The Man to protect your soul
When you're on the right path, you'll know it
Stay on the right side of life, one day, He'll show it
Just stay true, work hard, do you
And life gon' end up like you wantin' it to, huh

Ain't gon' end there, ain't gon' end there, yeah (Better, better)
Said it won't always be this rough (Better, better)
God will keep you with His love (Better, better)
Keep your head up, my friend (Better, better)

I bet you come out on top
Same way you did the last time you dropped
Gotta stay on track, know God got your back
And He can pick you up no matter where you're at
I lost a lot of loved ones, lost a lot of friends
I know they up in Heaven lookin' down at the wins
I took a lot of losses, but got back up again
We gotta stay strong, hold it down like men
It ain't fair, but it's life
Before I give up, I'ma get my shit right
I'ma leave them tears on that pillow from last night
Today, I'ma stand up, go back out, and fight
Before I get fed up, I'ma keep my head up
Show the world I can do it, get my bread up
I done seen it all, man, you can't scare us
Against all my falls, my record is A-plus

Ain't gon' end there, ain't gon' end there, yeah (Better, better)
Said it won't always be this rough (Better, better)
God will keep you with His love (Better, better)
Keep your head up, my friend (Better, better)
Ain't gon' end there, ain't gon' end there, yeah (Better, better)
Said it won't always be this rough (Better, better)
