

One Night

Slim Thug

I got that money
I got them cars
I got them clothes
I got it all
But I can only spend
One night with you
One night with you, girl
I'll treat you good
I'm from the hood
I put it down
You know I would
But I can only spend one night with you
One night with you, girl

If only for one night
Baby, let me change your life
Let me show you what
Livin' that boss life like
In this world of lames
Ain't too many real n-ggas
F-ck what you heard
Don't judge me
Till I get to chill wit ya
Be real with you, take you places
You ain't never seen
The phantom ... to get ya
That be gettin' green
Clean when we roll up
Quart a mill or better
I'll bet that leather
Will make that wet pussy wetter
Been right for the night
Got a taste for lobster
Take and Mr. ...
But I can't be your man
Gotta get back on them checklist
Please understand
Gotta get it

I got that money
I got them cars
I got them clothes
I got it all
But I can only spend one night with you
One night with you, girl
I'll treat you good
I'm from the hood
I put it down
You know I would

Best night of your life though baby

But I can only spend one night with you
One night with you, girl

See how mu hustle work
My freak time is spendin' mon

I'm still chasing dream even when I'm livin' none
Givin' 'em all I got
Climbing closer to the top
And you so bad
You give head hustle blood
So let's enjoy the present

...

Till the day I land
Ain't tryna move too fast
Let's have a blast
Drink till we pass out
Party ...
Nobody gotta know about us but us
Can't let them haters in
I've been in this baby
They're tryna block a shine
Without commitment
You're gon' still be mine
Girl, I hold it down
When I'm around
We gon' live it up
I gotta go but I be back soon
Don't give it up too much

I got that money
I got them cars
I got them clothes
I got it all
But I can only spend one night with you
One night with you, girl
I'll treat you good
I'm from the hood
I put it down
You know I would
But I can only spend one night with you
One night with you, girl

I'mma leave the studio
Turn my phone off
Come and pick you up
And I'mma give you all you need
For one night yeah

One night with you, girl
One night with you
Catch a flight with you
Touch the sky with you
I'll give it all to you tonight
So take some pictures
Let's make some memories
And send 'em to your sisters
One night, one night, one night
