

Stuck

Slim Thug

Stuck in the middle
What up? It's Neighborhood Nip Hussle
You already know, with the legend Mr. Lee right now
Man, this the architect right here
Thought I had it under control
Slowly been learning I'm losing, I'm losing it all
After we're done done, deep underwater

I'm always stressing, fighting daily depression
Looking for Lord's blessing, end up just learning lessons
My time gotta be close, I can't be down for long
I do right every day, people doing good doing wrong
Don't know what path I'm on, I'm just stuck, which way is up?
One day, I pray for patience, next day, I don't give a fuck
They quick to say, "Good luck," but, shit, my luck been fucked up
Everybody else comin' up, damn, how I'ma get these bucks?
Gotta deal with these bills and these bills feel like hills
Soon as I get close to the top, my feet turn back to wheels
I could cry 'til my eyes get dry, but what that's gon' do?
Keep my head up, keep fightin', and keep my faith in God 'cause I got to

Stuck in the middle
Wouldn't wanna be where I was
Having this crushing doubt
Thought I had it under control
Slowly been learning I'm losing, I'm losing it all
After we're done done, deep underwater, I

Can't stay down for long, now 'cause my faith too strong
Keep climbin' 'til I get over whatever mountain I'm on
I know them better days is only days away from home
One thing the world show, you gotta just continue on
Stuck in the middle and it's feelin' like life's over
Keep goin', in the end, I bet you comin' out colder
If you lost someone you love, they watchin' from above
Make sure you makin' them proud out here and not fuckin' up
Take advantage of your time while you're here
'Cause Lord knows we lost a lot of loved ones year after year
Can't believe my nigga gone, got me shedding tears
R.I.P. to all the ones I lost, we wish you was near

Stuck in the middle
Wouldn't wanna be where I was
Having this crushing doubt
Thought I had it under control
Slowly been learning I'm losing, I'm losing it all
After we're done done, deep underwater, I
Stuck in the middle
Wouldn't wanna be where I was
Having this crushing doubt
Thought I had it under control
Slowly been learning I'm losing, I'm losing it all
After we're done done, deep underwater, I

Yes, I am

I can see my way
