

# What U Mean To Me

Slim Thug

I'm in love with this bitch, can't go to sleep unless I hit  
Only hoe I know that can call me a trick, and don we ran this bitch through  
the clique  
Some bitch named Mary, she got that good, riding with me when I'm in the hood  
Tipping fours and sipping fours, I'd marry that bitch if I could  
Stay pumping on that strong  
Brothers held back from the LA home  
OG set got a nigga mind blown  
Feel I could smoke the whole zip on my own  
I tried to quit but can't leave that bitch  
There ain't no seeds in my shit  
I got the best weed in Texas  
Go on pass along that message  
Let me find out you stressing, in the club smoking that sprite  
Put that shit back, come get high with me, today your lucky day  
I ain't smoking on that hate, we stay smoking on that good  
Riding candy blanket this Texas shit when I'm flipping round in my hood

Shorty always with me when we riding around  
Only bitch that understand what I be talking bout  
She was meant to be with me  
Share her with my niggas, but there ain't no leaving me  
Don't know what you mean to me

Break it down then roll it, only thing that keep me focused  
In the air we smoking, not soaking, don't know what you mean to me  
Take the lead, keep blowing, let tension off my shoulders  
Addicted to her, she both, choking  
Don't know what you mean to me

I need my medicine, smoke kush like it was prescribed to me  
And when I lay in my casket I want all my G's to get high for me  
Eyes funny like I'm Vietnamese, Chinese, even Asian  
Woked up, smoked a blunt for breakfast, now kush cookie what I'm craving  
And what I smoke is amazing, Cali grown where the weather great  
Ain't no telling what I spend a week, just know we puffing that heavy weight  
In the air I levitate  
In the clouds that's where I stay  
It ain't gon make all the pain stop but it'll ease the shit up right away  
Roll one and blaze right away, feel cranked without Mary J  
Only drug that I can't shake, puff puff til my chest ache  
Paper, blunt, bone, shit we smoking weed in every way  
Yeah in every way and we do this shit every day

Shorty always with me when we riding around  
Only bitch that understand what I be talking bout  
She was meant to be with me  
Share her with my niggas, but there ain't no leaving me  
Don't know what you mean to me

Break it down then roll it, only thing that keep me focused  
In the air we smoking, not soaking, don't know what you mean to me  
Take the lead, keep blowing, let tension off my shoulders  
Addicted to her, she both, choking  
Don't know what you mean to me

Dark skin with a sweet smell, ocean grown with the seashells  
Engine room with a bad bitch, high octane, v twelve  
Tell her truth, should we go somewhere more suitable? In a room you don't know what I'd do to you  
Open the jar, licking on the cigar, break it down and if it look we be fruity loops  
Goodies, please, blowing leaves  
Wide body with a wide body  
Already got it, forget about it  
On the waistline, no side pocket  
Top dropped, I'm drop topping  
Crawling, spalling, balding, falling all on you can smell my cologne asking what I got on cause the Lord he be talking  
Stand on my own, I don't come in here often  
In the water with sharks I'm a dolphin  
Inhaling the sticky, I'm coughing just to make sure my point got acrossed it  
In the love with the folks in the apartment  
They was trying to catch up but I lost them  
In the morning we kush with the coffee  
And the pound was like drinks is on all me

Shorty always with me when we riding around  
Only bitch that understand what I be talking bout  
She was meant to be with me  
Share her with my niggas, but there ain't no leaving me  
Don't know what you mean to me

Break it down then roll it, only thing that keep me focused  
In the air we smoking, not soaking, don't know what you mean to me  
Take the lead, keep blowing, let tension off my shoulders  
Addicted to her, she both, choking  
Don't know what you mean to me
