

## Balance

Slim

I'm tryna make shit balance  
The roads and the rapping but the oils got the lock with the magic  
Were talking numbers  
The phone lines rapid were talking  
My new ting she looks kinda Spanish  
I make shit work  
How many times did we get a L and the jakes took a bird  
Still loving this life  
The cats still loving this price and  
Thanks to rolex, I'm loving the time  
Told mom that her son is the man  
I'm really on the road, niggas really on the gram  
There asking for pics  
The cunch phone blasting for bits and  
It's Cali when I'm sparking my spliff  
I'm feeling the difference  
I brought bro in the trap now he's  
Definitely feeling the whipping...  
Nowadays, I sit back and make sure that nothing  
Goes wrong, man are 30 with nothing going on...

Tryna make shit balance  
The roads to the rapping, in due time somethings gotta give  
Stuck to the strip that was slim but I'm feeling  
The change, and their definitely feeling the kick...  
I'm tryna make shit balance

Change, and their definitely feeling the kick...  
I put my hands up  
Because I feel like I'm married to the  
Trap but this year I ain't carrying a pack  
I stepped in the showe and still brang my  
Mash, I have a hard enough time just balancing rap  
My shit gotta happen, you're mentioning slim then shit gonna pattern  
I came a long way from the pedal bike punches leaving me  
Stranded, now it's straight sports when I'm pushing in a matic  
I'm looking into fashion, it's probably Gucci  
I'm whipping in the pot, I ain't dropping no dookys  
The bricks come tapped  
I ain't fucking with a chick if her  
Shit ain't straight and that's never...  
Cause I didn't sleep to make the phone go  
Better, and talk to the Jake's, who me? No never...  
Cause I have a hard enough time just counting these  
Band and I bought all my jewels of money from the trap...

I'm tyna make shit balance  
The roads to the rapping in due time something gotta give  
Stuck to the strip that was slim but I'm feeling
