I need  
I need

I need some good energy, I need a remedy  
I need a holiday show me to the embassy  
I need to take a yacht and sail across the seven seas  
I need to think about my path and what's best for me  
I need a first class flight, not a ticket to Dubai  
I need to visit where I'm from, go catch a little vibe  
I need to find a little time, go and spend it how I like  
Maybe spend it with the wife, but I'm always on my grind  
I need to think about the life that I'm living  
All the time I was given just confined up in prison  
Take a look at the advice that I'm given  
Separate the good and bad 'cos it's blinding my vision  
I need a lighter for this gelonade, ice for my lemonade, time j  
ust to get away  
I need to beat a case, courts only weeks away  
I need to tell my people that I love em till we meet again

I need some good energy, I need some good loving  
I need a girl superbud call me mc'lovin  
I need to pattern up the block make sure the hoods covered  
I need to go and read a book out of the book cupboard  
I need to top up on the knowledge that I got  
I need to know if deep down this is really what I want  
I need some time with my daughter go and take her to the shops  
Buy her what she wants life's short buy it just because  
I need to hit the beach feet up in the sand  
I need to visit Italy and see the scenes up in Milan  
I need to fly out to Phuket and have a meeting with a man  
I'm talking business green packs see it when it lands  
I need a rizla for the top shelf, worker for the block sales  
A shot with my cocktail and gravy on my oxtail  
I think I need a hot girl, one looking not real  
Just while I'm on bail, I need...
