

Steady

Slim

Ayo life's what you make it
Me I've been grinding for ages
So I know somethings got to pay
I was stuck up in a cage
Way to stubborn
I swear I'm still stuck up in my ways

I don't love niggas
Try stab me in the back so it's fuck niggas
I just copped a new 9 and got slugs with it
I swear every bit of grubs getting stamped on
So if its 9/10 I can run with it
I'm tryna done with the trap, Jas told me to do rap he gone pattern up the w
aps
And people change like the seasons
We just keep the phone lines beating
And make sure that everybody's eating
So everything's good
And if we're talking rap they're saying that I definitely should
These instagram niggas they ain't never in the hood
And mum said I shoul da stayed in my books
But the groupies love me
I swear that this life's getting lovely
It's been 10 minutes and the phones done a monkey
Shit was hard
Mad cause I done it from a half
I remember when the car didn't start

It's steady
No sweat handle the pressure
Take time let things come together
Cause I used to dream
And then I met fiends
And next thing I saw my life changed for the better
See the chains on my sweater
It's GG print
Got a mask in the kitchen cause the TT stinks
Gotta step back when it gets too much
Life always brings L's but don't ever give up

Yo it's steady
My 9 stays filled up with petty
And the phones still bringing in plenty
Truth is, this rap ain't a thing
And if it ain't a 5 figure prof
Then truth is the pack ain't the flip
I'll get back to the strip if I have to
Make a little money and they wanna act brand new
And me I never stayed at home
And I never changed clothes till I made a 100 bags in a tracksuit
You gotta make a move or nothing won't happen
You try take my shit then something's gonna happen
We used to rob pedals
And then we shot pebbles
I swear certain man they're still stuck back then
But me nah there's no stopping
I've done weeks on the grind, see I know profit

I got knicked every time it was no comment
They want me on the mic making notes from it
They're talking money then Slim I'm so on it

It's steady
No sweat handle the pressure
Take time let things come together
Cause I used to dream
And then I met fiends
And next thing I saw my life changed for the better
See the chains on my sweater
It's GG print
Got a mask in the kitchen cause the TT stinks
Gotta step back when it gets too much
Life always brings L's but don't ever give up
It's steady
No sweat handle the pressure
Take time let things come together
Cause I used to dream
And then I met fiends
And next thing I saw my life changed for the better
See the chains on my sweater
It's GG print
Got a mask in the kitchen cause the TT stinks
Gotta step back when it gets too much
Life always brings L's but don't ever give up
Yo it's steady
