

## Touring

Slim

Three O spots, that's my definition of a business plan  
We dem boys dat run through 15, shh  
And have a couple Cubans linking hands  
Couple times man done it all bait all alone  
Or I done did it with gang  
I can never sit on my ass and complain about cash  
I just hit the strip and go ham  
Six shot clap like a round of applause  
Na you won't only hear it from fans  
The way the gang always get smokey  
With [?] always in [?]  
013 was mad, tell the plug, give fags  
How many times have I been in their trap?  
And I had to go make it, I'll balance on sight  
If I ever had a show in an hour  
Had to rush just to weigh the last couple of grams  
Left the T with a couple of grand  
And hit show and got couple of grand  
Me and bro own a whole load of waps  
Might have to tell the label I want it in cash  
I was in the jailhouse puttin' in aps  
Touch road, push weight without a weapon or am'

I ain't got time for the jokes aside  
Came to far from a runner on lines  
Now its designer kicks when I step in a brick  
And put runners on lines  
And I did it in O  
Same way I did it with bro  
Look at the whip, I did it with love  
And dem man would have been lit too if they did it with us

D&G or Givenchny is what I walk in  
I ain't got time for stress from no shawty  
More time the boy touring  
Uptown with the gang and do shopping  
And then we go foreign  
On time for my freshman's dinner  
And then I finish with a soft drink

Slim and heads  
That sounds like the trap and skengs  
And I came a long way from little old me  
Just cause back then we done it on peds  
Now I just pull up in foreign whips  
You can miss me with the politics  
Cause I paid 60 racks for the watch and that  
No way I borrowed this  
So just keep it good  
And no way I could beef these kids  
They don't keep it hood  
And I feel like the one with the twos that I done in the T  
Just repeating juggs  
It was just me, mention slim, we talking G's  
I know about work  
How many times did I turn on the heat and fuck up a bird?  
Excellent stuff

And the trap phone is peppering up  
If it weren't for the funds, glitz and glamour  
Would I be getting this love?  
If it weren't for the rap and trap  
Would a young nigga be getting this uck?  
Now I just pull up in German whips  
And I heard that a brick's soon 36  
So now I'm gonna take a dirty trip
