Do Nothing/Bitchslap

Slipknot

The system has failed and you have failed with it
No time to care, just time to say "Who gives a shit?"
My mind boils as I've decided I'm through
Fuck your position in life. I'm taking vengence on you

I break down the walls of the political arena
Cast the vote on FN-FAL, yeah, we'll be seein' ya!
(protect yourself)

I want to put a cap right in your asshole
You step to this, you're gonna pass
for a lump of dogshit in the grass
So, be on your way and get some class

Bitchslap

Chop down the big-wigs, shoot the telelvisions, too
My mind boils in life as I've decided I'm through
The guilty of crimes will be hung from the trees
Spit and punches arise from you and me

Sit back and do nothing if that's what you want to do
I will have my reign as king, when I take vengence on you
