

# Hive Mind

Slipknot

Yeah

Rise, we're gonna need another witness just like you  
Surprise, your inadmissible testimony might be true  
You better pull the hood (Get it off, get it off)  
You'll be lucky to tear the place down  
Then you're gone for good (Set it off, set it off)  
Scorched earth is your favorite sacred ground  
Turn away if you know you wanna stay  
But you're never gonna like what's left of me  
When the carcass is down and the predator's around  
You're gonna play dead if you wanna run free

You're such a tortured soul  
But I don't wanna hear about it  
You say you're not involved  
But all you do is talk about it  
Go bless this shit where you belong

For your own information  
For your own entertainment  
This hell comes to you live  
And if you need some assistance  
A little time to convince it  
Dial in your sordid hive mind

Crawl across the broken glass of every window you're pressed against  
And scrawl, your little bits of hate  
Your little digital graffiti breaks  
So don't close your eyes (Get it off, get it off)  
When you're pulling your messages down  
You wanna go to sleep? (Set it off, set it off)  
You'll be lucky if they take you without making a sound  
What a guy, God, I hope you fucking die  
And your sympathies don't mean shit to me  
When the competence goes and the predator knows  
You better be dead if you wanna be free

You're such a tortured soul  
But I don't wanna hear about it  
You say you're not involved  
But all you do is talk about it  
One more thing  
And don't forget to burn

For your own information  
For your own entertainment  
This hell comes to you live  
And if you need some assistance  
A little time to convince it  
Dial in this sordid  
Protect the hive mind

Hold on, there's a river around you  
Swim hard for the other side  
Don't drown to spite your critics  
Just blow a kiss goodbye

Hold on, there's a river around you  
Swim hard for the other side  
Don't drown to spite your critics  
Just blow a kiss goodbye

Yeah  
Protect the hive  
Yeah  
Protect the-
