

# Override

Slipknot

The ghosts have given up  
Familiar haunts have had enough  
Too much thought will give you doubt  
And now they found you  
It's safer in a cage  
They can't tell you what to say  
All your dreams come with a price, so they own you  
But what did you expect?  
Was it too much to protect?  
Did you understand they had selfish intentions?  
When they were pulling you in opposite directions

You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override

The dead don't know, the dead are lonely  
A fascination fades  
When this mercy execution says it's over  
You follow as preferred  
Now their plans are undeterred  
Who can break their need to supersede? It's over  
Even hate starts out as love  
Sometimes when it's all you want  
Maybe satisfaction will take you for granted  
When all that's left is the emotion you abandoned

You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override

You clawed out from nothing and I sent you back  
Fought to the metal, and law's what you lacked  
Covered in sores - you cannot be the one  
You are the answer to why we have risen  
You are not the way  
You are judged to be afraid  
You are simple and unchanged  
We believe you should give up  
Give up  
Give up  
Satisfaction will take you for granted  
When all that's left is a life you abandoned

You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override

Give up (9x)
