1, 2, Look out behind you
Bitch, gonna be on all you
Peace suffocates their freedom
This'll better me, a part of me
You were a par and a nag
Thinkin' that you lost, my friend
It doesn't matter what price, you win
Blood, sweat, and bastard-size
Stare into the killer in your eyes!

Besiege me! I kiss your cancer Deceiving, this doesn't matter
Becoming degraded dated, Behind me, one more I swear I'm gonna
