

# Capitol Cooler

Sloan

What makes the Capitol cooler?  
The footlights are flickering on  
"So sorry to have kept you waiting"  
Said the singer as he started the song  
The singer as he started the song  
The footlights are flickering on

Making way for tomorrow  
Designing the ultimate mod  
Dull care and worry abandon  
As soon as they start to applaud

Isn't it strange, somehow?  
Always thought this was a beautiful place  
Tomorrow is near, for now  
Behold this elegant grace

New Year's Eve with your mother  
Pressing your nose to the glass  
The feathered fox is robbing the rich  
As the future just plunders the past, yeah  
The future just plunders the past

Isn't it remarkable how  
They built such a wonderful place?  
Remove the jewel from the crown  
Behold its elegant grace

Maybe they've gone too far  
Separated far from their seat  
The only guide comes from the stars  
If that's what you want to believe

Is it the end of this era?  
I guess that's just one way to perceive  
Will they die with their boots on?  
If that's how you want to proceed  
They're making way for tomorrow  
If that's what you want to believe, hey
