

# Human Nature

Sloan

Human nature  
Human nature  
We wanna make sure  
That we can figure out  
If we get talked about

I don't wanna know  
The latest in salacious family news  
Honestly I hate it but  
It can keep me amused

Go on  
Oh no she never  
Let's get together  
And talk it out

Human nature  
Human nature  
We wanna make sure  
That we can figure out  
If we get talked about

You don't wanna talk  
But if you're going to gossip make it good  
If they had the chance to dish on you  
You know they would

You know  
That office chatter  
Tends not to flatter  
And it's a shame  
Although  
It is beneath them  
You'll grit your teeth when  
You hear your name

Human nature  
Human nature  
We wanna make sure  
That we can figure out  
If we get talked about

You listen as they converse  
And steel yourself for the worst  
But nobody mentioned you at all

And lo!  
Your world was shattered  
You did not matter  
Amongst your peers  
A blow  
That made you stronger  
So you no longer  
Prick up your ears

Human nature  
Human nature

We wanna make sure  
That we get talked about  
So we won't feel left out  
Human nature
