Sloan

If it feels right  
Accept unblinking  
Make it real life  
Magical thinking

Message from the other side  
Feelings that won't be denied  
Believing in it all along  
I think it and I can't be wrong  
Unrelated, yet connects  
Supernatural effects  
It has meaning to me

Make it real life  
Magical thinking

Humankind  
Is wired to find  
Some meaning in this world reminds  
Me of a dream that will come true  
I want it  
I deserve it  
So I'm gonna get it

Never wanting  
Always known  
Make it happen  
Thoughts alone  
Righteousness is ringing true  
And feelings tell me what to do  
Hate surprises  
Love control  
But explanations can't console  
Just thinking it is to do it

Make it real life  
Magical thinking

I like to stay inside the realm  
Already comprehended  
Any other explanation  
Look to the cosmos  
Everyone knows  
It will send it

Never guessing  
Tempting fate  
Predictions come but come too late  
The weather's bad  
I can't complain  
Because I'm sad I made it rain  
I'm being punished but for what  
I guess I didn't trust my gut  
Sometimes I cannot control it

If it feels right  
Accept unblinking

Make it real life  
Magical thinking
