

## Spend the Day

Sloan

It's not like living in your real world  
Is better than my life on the other side  
I'm sick of wired and I'm tethering  
And weathering somewhere out of my mind

Hide away  
Spend the day in here with me a while  
Hide away  
Spend the day in here with me a while

It's not like every time your wide eyes  
Look at something that it's full of lies  
You're gonna try and find  
The who, what, why, where  
I refuse to recognize

Hide away  
Spend the day in here with me a while  
Hide away  
Spend the day in here with me a while

It's not that living in your real world  
Is better than my life on the other side  
I'm sick of wired and I'm tethering  
And weathering somewhere out of my mind

Hide away  
Spend the day in here with me a while  
Hide away  
Spend the day in here with me a while

Hide away  
Hide away  
Spend the day  
Hide away  
Hide away  
With me a while
