You've Got a Lot on Your Mind

Sloan

Write it so that I can remember, yeah
A summer-like setting, the chandelier glow
Recalling all of my favorite lines
By the end of it
I know that you'll know

Ooh, P.S. I like you
No, don't be cool
P.S. I like you

You've got a lot on your mind well I wish that you'd say it
Like a lamb and a lion that remained until May
Maybe L.A. is fine and I hope you don't stay
You've got a lot on your mind and I hope that you say it

If it's difficult to live in the moment, yeah
You're fondly forgetting, so you're inclined
To save all correspondence
I'll keep it close at hand
When Palm Springs to mind

Ooh, P.S. I like you
No, don't be cool
P.S. I like you

You've got a lot on your mind well I wish that you'd say it
Like a lamb and a lion that remained until May
Maybe L.A. is fine and I hope you don't stay
You've got a lot on your mind and I hope that you say it
Like a lamb and a lion that remained until May
Maybe L.A. is fine and I hope you don't stay
You've got a lot on your mind and I hope that you say it

If you have to take your time
There's no reason to decline
Just take a bit of mine

You've got a lot on your mind
Like a lamb and lion
Maybe L.A. is fine
You've got a lot on your mind
