

Horseshoe Crab

Slothrust

I learned that hunger is a symptom
Of adopting bad behavior
I bit my tongue last night
Woke up with blood on my pillow
I woke up thirsty

Words make less sense to me these days
Faces look flat and unfamiliar
Do you wanna rest forever?
Underwater, it gets better
When I get better, I'll treat you like I used to
I'll do the things you want me to

Sometimes I feel like I'm a seahorse
Sometimes I think that I'm a horseshoe crab
I don't have anything in common with myself
Except that I came from the sea, like everyone else did

It is so unfamiliar now
Everything is so unfamiliar now

I learned that hunger is a symptom
Of adopting bad behavior
I bit my tongue last night
Woke up with blood on my pillow
I woke up thirsty

Words make less sense to me these days
Faces look flat and unfamiliar
Do you wanna rest forever?
Underwater, it gets better
When I get better, I'll treat you like I used to
I'll do the things you want me to

Sometimes I feel like I'm a seahorse
Sometimes I think that I'm a horseshoe crab
I don't have anything in common with myself
Except that I came from the sea, like everyone else did

But it is so unfamiliar now
Everything is so unfamiliar now
