

I am magic, don't you know?  
Though it does not always show  
But you'll like what's up my sleeve  
It's getting harder to believe  
Blue rabbit, orange crow

I can make you disappear  
You can take my money  
I am growing over here  
I am sprouting flowers  
Do you like my magic glow?  
I'm evoking slowly  
All the truth I wanna know  
Will it make me whole?  
Holy holy holy  
Holy holy hole

You've got glitter in your hair  
See you sparkle over there  
But somehow you're out of reach  
Am I still your favorite peach?  
Blinded by your angel glare

I can make you disappear  
You can take my money  
I am growing over here  
I am sprouting flowers  
Do you like my magic glow?  
I'm evoking slowly  
All the truth I wanna know  
Will it make me holy?  
Holy holy holy  
Holy holy hole

I can make you disappear  
You can take my money  
I am growing over here  
I am sprouting flowers  
Do you like my magic glow?  
I'm evoking slowly  
All the truth I wanna know

I can make you disappear  
You can take my money  
I am growing over here  
I am sprouting flowers  
Do you like my magic glow?  
I'm evoking slowly  
All the truth I wanna know

I can make you disappear  
Do you like my magic glow?  
I can make you disappear  
Do you like my magic glow?  
Will it make me whole?
