

## Strange Astrology

Slothrust

I like them spooky  
And you're just my style  
Said the Leo to the Taurus  
And if you'd like to stay  
With me awhile  
I'll cover us with forest  
We can stroll across a magic land  
It's green and it is glowing  
Lay our bodies in the moss and sand  
We know and we are knowing

And I don't mind  
Our strange astrology  
I hope we find  
You bring the best out in me

Let's keep it lazy  
In the living room  
If you believe in miracles  
So would I  
But as a Libra moon  
I keep it so satirical  
I like those flowers  
And I like that vase  
The way that you combine them  
Your sense of color  
Comes from outer space  
We never could align them

But I don't mind  
Our strange astrology  
I hope we find  
You bring the best out in me

Michael Jackson never spoke to me  
Said the Taurus to the Leo  
All his hits are in a major key  
And my rising sign is Scorpio

But I don't mind  
Our strange astrology  
I hope we find  
You bring the best out in me

I don't mind  
Our strange astrology  
I hope we find  
The sun and the stars and the sea
