

Waiting

Slothrust

I got loud
Flipped my lid, I always do
I'm not proud
Sucks the patience out of you
I'm inspired
I can't sleep but I'm so tired
Turn me around
Levitate me

Let me out
I've been waiting for so long
Set me free
I've been waiting passively
I'm not scared
I've never been so prepared
Twist and shout
I'll wring out all of those toxins

Fuck the crowd
Eat their pain, get on my cloud
Stay this way
We will come back down someday
Cut my hair
Left the pieces everywhere
Birds will care
And I can hear their call
And I can hear their call
And I can hear their call
And it goes...
