

Walk Away

Slothrust

I'm tired of feeling like I'm living for someone else
I'm unrehearsed
Sometimes it hurts to watch you love yourself

Wish I could go back
To an unknown yestreday
When I was all alone

No one telling me to stay
Cause I'm sick of feeling like I'm living for someone else
You know it breaks me down to watch you blindly love yourself
But I can't so I don't and I won't walk away
But I can't so I don't and I won't walk away
But I can't so I don't and I won't walk away

We've been through this before
But what is it to you
You're so obsessed with the reflection staring back at you
You don't see me
I'm standing in the street
My arms are in the air
I will admit defeat
I always admit defeat

Cause I'm sick of feeling like I'm living for someone else
You know it breaks me down to watch you blindly love yourself
But I can't so I don't and I won't walk away
But I can't so I don't and I won't walk away
But I can't so I don't and I won't walk away

I'm sick of feeling like I'm living for someone else
You know it breaks me down to watch you blindly love yourself
But I can't so I don't and I won't walk away
