

Beached

Slow Crush

You can't stop the waves
From crashing into you
Take a breath
And let loose
Catch me like a wave
I'm running into you
I'll run at you
Overflow

Ride with me, let's slip away on the next up beat
Ride with me, dreamer
Ride with me, be my shotgun, I've saved the best seat
Ride with me

I'm driftwood on the sand
Washed ashore alone
Sun bleached threads to lead you
Be the shore I crash on
Let my heat immerse you
I'll drown you
Overflow

Ride with me, let's slip away on the next up beat
Ride with me, dreamer
Ride with me, be my shotgun, I've saved the best seat
Ride with me

Waves roll

Ride with me, feel the earth falling off our feet
Ride with me, dreamer
Ride with me, let's turn this storm into a calm breeze
Ride with me, dreamer
