

Lull

Slow Crush

Miss the warmth you radiate
Being only seconds away
It takes time, but when the pain kicks in
I feel you feel it too
I feel you sense it too

Slowly drifting away
Drifting away from you
Slowly drifting away

Stealing time with our eyes
Every word when we sway
Every day in tune with you
I'm mumbling
We're stealing time with our eyes
Every word when we sway
Every day in tune with you
I sing the same songs as you, softly

We're slowly drifting away
While I hold you
