

## Pale Skin

## Slow Crush

Feel the bleaker side of me  
Fear your light leaving me  
Shed your skin, make me hurt  
It is real now  
Have it all to give it away

Feel the bleaker side of me  
Fear your light leaving me  
Felt it all before  
Do you need a friend?  
I know that the end  
Will let you down again  
Lean your body onto me  
Feel the darker side of me

Felt it all before  
Do you need a friend?  
I know that the end  
Will let you down again  
Lean your body onto me  
Feel the darker side of me

Felt it all before  
Do you need a friend?  
Do you need a friend?  
'Cause I'll let you down again
