

## Swoon

## Slow Crush

All alone and no-one's home  
While we drift  
I just want to feel again  
Promise me, promise me

This weight won't carry me  
Burden bliss  
This weight won't carry me  
Don't carry me

Zeal surrounds me  
Out of tune, I sway along  
To the rhythm of our hips  
Stuck in your head  
Swoon to our knees  
Keep repeating  
Your voice through my ears

This weight won't carry me  
Burden bliss, bliss  
This weight won't carry me  
Don't carry me
