At It Again

Slow Pulp

```
Oh c'mon, please, don't take it back
I should've known that I couldn't make it last
Now I know that you know

At it again
At it again
At it again

Don't wanna feel like I'm split in two
Don't wanna show that I cannot seem to follow through
Now I know that you know

At it again
At it again
At it again

At it again
At it again
At it again
```
