

Cramps

Slow Pulp

She seems so ambitious, talking and she's spitting
And I think I know what I'm missing
There's nothing better
Watch out for Heather
I play out the same scene, bleeding on my new sheets
I wanna bake out on the concrete
There's nothing better
Than keeping it together

I'll take anything (I'll take anything)
That you wanna give (That you wanna give)
But I want everything (Everything)

Be a better lover, I know that I'm a runner
Oh no, I think I've become her
There's nothing better
Than being the protector
Out of a routine, the only one I've ever seen
I wanna be a foolproof machine
There's nothing better
Wanna be like Heather

I'll take anything (I'll take anything)
That you wanna give (That you wanna give)
But I want everything (Everything, everything)
Everything (Everything)
I'll take anything (I'll take anything)
That you wanna give (That you wanna give)
But I want everything (Everything, everything)
Everything (Everything)

I'll take anything
That you wanna give
But I want everything
Everything
