Slow Pulp

I hate that sound  
They've all been used by now  
My doubts too loud  
But its beauty I turned down

I kept on holding out for the downside  
Before I knew why  
I don't think I can win my pride on time

I'm losing all the while  
I'm losing all

I'll keep you out  
My body knows me now  
I'll try to be without  
Sleep on your shoulder for now

I'll keep on holding out for the downside  
Before I knew why  
I don't think I can win your side on time

I'm losing all the while  
I'm losing all
