

Bleed

Slowdive

And when the starship falls away
I thought I saw you
It's falling down most everywhere
I thought I saw you bleed

I saw the streets today
Took it all and walked away
I saw it all, I saw the day
Takes it all and leaves me
I saw the streets today
Took it all and walked away
I saw it all, I saw the day
Takes it all and leaves me

Wasting life on a misery
I come inside, I just walk away
Wasting life on a misery
I come inside, I just walk away
Wasting life on a misery
I come inside, I just walk away
Wasting life on a misery
I come inside, I just walk away
