

Hide Yer Eyes

Slowdive

Think you're good?
You dont look so good,
Theres nothing here that makes you feel the way you
should.

The Summers gone and you've lost your way,
Why hide your heart you know its always such a waste.

Seeing you cry and it makes me sad,
Makes me think that I should hold you every day.

Miss you always,
With every breath you make me drown.
Miss you always,
Underneath your breath I hear a little pain

Think your tough [.....]
Theres nothing cool that makes my heart the same way

I have seen you cry and it makes me sad,
Dont hide your eyes you know its always such a waste.

Miss you always,
With every breath you make me drown.
Miss you always,
Underneath your breath I hear a little pain
