

Falling down in a violent way
Come on brother, he'll only make you pay
Twisted mind, you break my heart
I'm losing all, but I think I'll make it right

He's dancing across the fire
Down again
He's Dancing across the fire
Down again

Falling down in a violent way
Come on brother, he'll only make you pay
Twisted mind, you break my heart
I'm losing all, but I think I'll make it right

He's dancing across the fire
Down again
And he's dancing across the fire
Down again

Watch it all and watch yourself
He feels it all, he feels it all
Hey, you know I watch your stars
I love the way they twist my heart
Feels it all fall apart
I'll lose myself, I've spent it all
Twisted mind, don't break my heart
Dont believe it
