Slowdive

I was a junkman  
A candle burning  
Settled over  
When the night rolled in  
I waited for you  
In my dreams of you  
An idle moment  
When the night rolled in

[Instrumental Break]

In the morning  
Come on over  
Your eyes are mourning  
When the night rolled in  
Time runs on once more  
Another ghost is born  
I feel like change will come  
When the night rolled in
