

# Summer Day

Slowdive

Last time I saw you  
The sun shined  
Would you miss me?  
You're never far, a window

I can't believe that I should care now  
All the sorrow in your heaven  
I thought this song would dry your eyes  
And I'm sorry to have missed you

Drive away  
On your summer's day  
I'll drive away  
On your summer's day

I'll drive away  
On your summer's day  
I'll drive away  
On your summer's day

I'll drive away  
On your summer's day  
Drive away  
On your summer's day

I'll drive away  
On your summer's day
