

## Take Me Down

Slowdive

Take me down, oh take me through  
I miss the ground, I'm so lost in you  
Take me down

I hear you say, "hey don't run away"  
But I close my eyes and let my feeling play  
It's so wild this way

I don't feel and I could never steal  
I don't love, no I just don't care  
'Cause I'm a silicone lover and I'm floating on air  
Oh yeah!

The wind takes my works and you don't hear a sound  
It's a cold feeling when I hit the ground  
But you still fly  
While I just try  
Clouds across my brain and I can't explain  
But when I look across the sky I see no memories  
No sacred years
