

Yesterday

Slowdive

I love you so [?]
Mean that
And I love you so
For love you did it
And all that I was ever known
Yesterday I said that someday I can be better
Yesterday I said I don't think I can try

I looked at the fallen and all that I saw was the water
And nobody told me that all I could see was on you
All of the time I was thinking that I wouldn't watch you
And all of the things I could see when I looked at your mind

And yesterday's done and [?] all I knew yesterday
All I knew that I knew's all I know I shall need
All I knew's [?] and all I [?] fall will be back
No longer sin and we'd no longer [?]
Fall on your head and it's all on, it's all on in me
Fall on your head and it's all gonna fall on me
Fall on your head and it's all on, fall on me
Fall on your head and it's all over, fall on me
Fall on your head and it's all on, fall on me
Fall on your head and it's all on, you'll fall onto me
Fall on your head and it's all on, well fall onto me
Fall on your head and it's over, well fall onto me
