

Daisy Chain

Slowly Slowly

I fell out of you, but a daisy chain
Tucked under my shoelace, saved the day
It was all volcanoes, lava lakes yeah
Licking my face and my shoulder blades

So I climbed back up, and it held my weight
Oh what do ya know, well now anyway
Thank god for you, my little daisy chain
You caught me just before too late

I made a hole in the dry wall
You better wake up my little protege I can see Narnia!
You got a hell a long lineage of pushing up daises baby
It's what's in front of ya!
It was all too good, too clean
Fingers in my ears singing la di da di da
I wanted god to call me a bitch
But that's my job and life's not linear

How long have I been saying that I'll cut it out?
I wore it like I was so proud
So long, watch me live with it and make it out
Everything comes back around

I got a bone to pick with exoskeleton armour
I lost it and never felt prettier
I'd like to thank the academy
Footsies on my deathbed, fade away, three points here we are
I was just too nice, too weak
Oh, fingers in my ears singing la di da di da
I wanted scratch so I prayed for an itch
It doesn't work like that, cause life's not linear

How long have I been saying that I'll cut it out?
I wore it like I was so proud
So long, watch me live with it and make it out
Everything comes back around

Daisy chain, stay the same

I felt I was a bystander, numb from the cancer, I don't know
I made the rules, played it all cool, when you took my heart
It was all me, it was all me

I turned a blind eye

I fell out of you, but a daisy chain
Tucked under my shoelace saved the day
It was all volcanoes, lava lakes yeah
Licking my face and my shoulder blades

So I climbed back up, and it held my weight
Oh whatddya know, well now anyway
Thank god for you, my little daisy chain
You caught me just before too late

How long have I been saying that I'll cut it out?

I wore it like I was so proud
So long, watch me live with it and make it out
Everything comes back around

Daisy chain, stay the same
Daisy chain, stay the same
