

Empty Lungs

Slowly Slowly

I get stuck
And you come undone
But we're lining up
Real slowly
Were in the slip stream baby

You want the view above the wall
I've started thinking that there's nothing there at all

I keep, going
Cause I can't decide
If I, had to, I'd choose you and I
I roll, snake eyes, every time I leave
I gotta, keep up, with the best of me

Am I done
Empty lungs
Speak again real slowly
Here we go don't hate me

You want the view above the wall
I've started thinking that there's nothing there at all

I keep, going
Cause I can't decide
If I, had to, I'd choose you and I
I roll, snake eyes, every time I leave
I gotta, keep up, with the best of me

How did I get stuck?
So sanctimonious
How did I get stuck
With you?

I keep, going
Cause I can't decide
If I, had to, I'd choose you and I
I roll, snake eyes, every time I leave
I gotta, keep up, with the best of me
