

# Longshot

## Slowly Slowly

It's always on time, bloodshot eyes  
Another shock collar call in the dead of the night  
We like drinks on 5 with that zombie vibe  
Another steam rolled life with a smile online

You gotta stay real cute, stay in view  
Another lightning strike in the dead of the night  
We like bottled up lies, bedroom eyes  
Another train wreck sight, you're just my type

Let's make a deal to sleep forever, we'll just flip the world round  
Our dreams can be reality while we just shut the rest out

It's a longshot  
Hey, but what can you do?  
I need a way out  
Guess that I'm banking on you  
It's a longshot  
But it's all I got

It's a longshot

I tell you I'm fine, but fuck my life  
I got that dead eyed shine down-pat, right?  
Keep chasing lights, Saturday night  
Another nightcap fine, one more line

If you're banking on a longshot then we're on the same page  
Let's change planets, let's change bodies, I think I want a new name

It's a longshot  
Hey, but what can you do?  
I need a way out  
Guess that I'm banking on you  
It's a longshot  
But it's all I got  
It's a longshot  
But it's all I got

It's a longshot

It's like anyone could take the place here for me  
If anyone has noticed, they'll just forget next week

It's a longshot  
Hey, but what can you do?  
I need a way out  
Guess that I'm banking on you

It's a longshot  
Hey, but what can you do?  
I need a way out  
Guess yeah it's all on you  
It's a longshot  
But it's all I got  
It's a longshot  
But it's all I got
