

# Melbourne

**Slowly Slowly**

I'm going back to future  
Each night when I dream  
I'm standing on steeples  
I'm on Flinders Street  
Yeah, I hear The Forum  
The heat in the air  
You could cut it like cake  
From Brunettis I swear  
Yeah, I wanna be here  
When they end the fight  
And the lights of my neighbours  
Go out for the night  
Their houses all empty  
The sound of the streets  
My new favourite song  
I haven't heard it in weeks  
Take me down to Fitzroy, yeah  
And teach me how to dance  
And when we move on to Rev's  
Make sure that I'm sorry in advance

What I'd give  
To take you out to dinner  
It's been a long year, but I'm sure  
Melbourne's gonna answer when I call  
What I'd give to take you on a bender  
Let the kinks all flatten out

Melbourne's my town & I miss her  
And I miss her, and I miss her  
I'd love nothing more  
Than to be standing behind  
The pole at the corner  
To be wrapped round a pint  
For my shout at the bar  
For my phone to just die  
For Monday regret  
An overpriced cab ride  
To miss my tram  
Pay five bucks for a coffee  
Uncomfortable small talk  
And wait like a zombie  
In queues and in lines

Yeah, I'm in lockdown I'm longing  
Melbourne, I'm sorry  
Take me on a joyride yeah  
Windows down to smell the flowers  
I wanna see the 'G light up this year  
And sit on Punt Road for an hour

What I'd give  
To take you out to dinner  
It's been a long year, but I'm sure  
Melbourne's gonna answer when I call  
What I'd give to take you on a bender  
Let the kinks all flatten out

Melbourne's my town & I miss her  
And I know where I want go on the way home  
I wanna stand at Danny's burgers, in the cold  
Just when you thought we were done  
Melbourne's made a comeback

What I'd give  
To take you out to dinner  
It's been a long year, but I'm sure  
Melbourne's gonna answer when we call

What I'd give  
To take you on a bender  
Let the kinks all flatten out  
Cause Melbourne's my town & I miss her
