

Nothing On

Slowly Slowly

If I find the line you'd let me know right?
Us working dogs we like to get in front of it
If I breach the code are you gonna talk me down?
'Cause that ledge looks pretty, but not when you're in front of it

Take your chances, take 'em on me
Let me check my schedule, here we go let's see
I planned to scroll my phone while I watched tv
I could move, a few things around
But look that's not a guarantee, she said:

Come round
I got nothing on
It would be rude not to play along
I've been waiting for so damn long
To see you
With nothing on

I watch my tongue with you
Don't wanna come across like I usually do, yeah
There's only so much I can do
But, if I'm self medicated, it won't hurt when you say it

Take your chances, take 'em on me
Let me check my schedule, here we go let's see
I planned to scroll my phone while I watched tv
I could move, a few things around
But look that's not a guarantee, she said:

Come round
I got nothing on
It would be rude not to play along
I've been waiting for so damn long
To see you
With nothing on

Our world had to fall apart for the silent skips in my aching heart to show
up
Take your time
I've got nothing on and we've got all night

Come round
I got nothing on
It would be rude not to play along
I've been waiting for so damn long
To see you
With nothing on

(Take your chances, take 'em on me)
Nothing on
(Take your chances, take 'em on me)
Nothing on
(Take your chances, take 'em on me)
Nothing on
(Take your chances, take 'em on me)
Nothing on

To get me in the mood
Nothing on
I need all of you
Nothing on
I get busy too
Nothing on
But I heard you got nothing on
